What they say about us

I just started a business and am funding it on my own, so finances are tight. I need to make every penny count and not waste my time. I was nervous about this purchase, but I had such a wonderful turnout that I wanted to share my experience. I had 57 people respond very positively to my emails. I am gaining wonderful exposure and am thrilled with this valid help. You can definitely use these services without any reservations.

Fantastic help with securing the perfect blogger list for my book project! I asked for a list of influential bloggers in my space in order to promote my new book. Feedspot gave me the perfect list! And it was double the size they had promised!!! I am thrilled! Definitely use them for your next project.

What they say about us

Feedspot rocks, we are looking to connect with tax blogs specifically (which is very niche), and they developed a list of 700+ bloggers in the space of taxes, fintech, etc. for a really awesome price. Speedy delivery and helpful customer service! Feedspot just kicked our PR program up a notch.

What they say about us

This service has been extremely helpful for me and my team! I currently work for a startup company as an in-house PR Strategist. We have an intern to gather contacts for us, however Feedspot really brought our outreach to another level! I asked for a list of coffee blogs, as we put out a study on the Best Coffee Cities, and was given over the amount we paid for as well as a lot of very useful social media information. It would have taken our intern months to gather this information, but we were able to access it in a few days!! Would recommend this service, especially if you are looking for niche contacts that can't be easily found.

As one who has been burned more than once by purchasing a list, I came to this exchange warily. But boy was my faith rewarded. Proves to be miles above anything else I've bought, by way of a list. Thorough. Tailored. Immensely helpful, and impressed.

What they say about us

I discovered Feedspot during a Google search. I've been extremely impressed with everything they have been able to provide me. It's exactly what I was looking for. The service and speed with which they turned around my request was excellent. There were some specific custom changes I needed and Feedspot provided them quickly and at no extra cost. I recommend them highly. Great product, service and value!

As a publicist during the time of covid-19 it has been rough getting in front of media due to networking events being shut down. This list gave me a list of almost 4000 contacts in the niche I was looking at. I got the list to find popular blogs in a specific niche so I know who to network with. If I was not a PR professional this platform would be my best tool. Anuj even sent great tips 24 hours before the list was sent that helps you to create & nurture those contacts. Great platform to be part of.

What they say about us

I must admit, I was a little skeptical at first being a 35 year Independent film producer you are always looking for new ways to think out of the box and create buzz for your films. I received a sample list from Feedspot of bloggers and Horror site magazines and was pleasantly surprised after emailing the contacts I was given at which we got great responses. I couldn't have been more pleased.
